

COUNCIL FOR GREEN REVOLUTION

An Environmental Organisation

Celebrates

EARTH DAY

INVEST IN OUR PLANET

22 APRIL 2022

ABOUT EARTH DAY

April 22 each year marks the anniversary of the birth of the modern environmental movement. It is the largest civic event in the world, celebrated simultaneously around the globe by people of all backgrounds, faiths and nationalities. Observance of the Day broadens the base of support for environmental programs, rekindles public commitment and builds community activism around the world through a broad range of events and activities. More than a billion people participate in campaigns every year through over 22,000 organizations in 193 countries. First earth day achieved a rare political alignment, enlisting support from Republicans and Democrats, rich and poor, city slickers and farmers, tycoons and labour leaders. The first Earth Day led to the creation of the Environmental Protection Agency in the USA and acts such as Clean Air, Clean Water, and Endangered Species. Further, it inspired environmental movements elsewhere in the world. The Day is observed focusing on a pertinent theme every year and this year Earth Day calls to "Invest in Our Planet." Council for Green Revolution has been observing Earth Day every year since its founding. On this Earth Day, our call and appeal are to observe the day and promote earth consciousness. Join the cause; let us all be Earth champions, together, for everyone, everything and every day...

INVEST IN OUR PLANET

Our living planet is facing challenges like loss of biodiversity, resource depletion, climate change, pollution, and desertification. And our ecological footprint is growing large year by year. The Earth Day 2022 theme calls to "Invest In Our Planet". The call pronounces use all the resources to recover the planet earth from devastation and destruction...

- The time is short to restore nature and build a healthy planet for our children and their children.
- This is the moment to change it all - the business climate, the political climate, and how we take action on climate.
- It is the time to preserve and protect our health, our families, our livelihoods... together; we must invest in Our Planet.
- A green future is a prosperous future.
- We need to build a green and sustainable economy.
- We need to act boldly, innovate broadly, and implement equitably.
- We go for the green economy.
- Government shall turn to the sustainable development paradigm.
- People of the earth have to leave in harmony with nature and background ecosystems.

"You cannot get through a single day without having an impact on the world around you. What you do makes a difference and you have to decide what kind of a difference you want to make."

- Jane Goodall

12 YEARS ENVIRONMENTAL JOURNEY OF COUNCIL FOR GREEN REVOLUTION

- Founded on Earth Day 22 April 2010 to work for environmental protection and nature-centric sustainable development.
- So far facilitated planting 3.6 million saplings by involving 11 lakh govt. high school children in Telangana and Andhra Pradesh states.
- Founded Greens' Alliance for Conservation of Eastern Ghats in 2011 and published "Eastern Ghats Environment Outlook" which was released by Sri Pranab Mukherjee, Former President of India in 2019.
- The Earth Center was founded to nurture earth leadership and organized the Conference o People on Climate Change in 2021.
- Received Haritha Mithra Award from Govt. Telangana in 2016 & '17.
- Recipient of Justice Kuldeep Singh National Award in 2017.
- GCR's work was included 5th class science text in 2013.

MAKE A DIFFERENCE

- Educate, sensitize and promote earth consciousness
- Plant saplings and protect old trees
- Conserve water, soils, electricity..
- Protect biodiversity.
- Observe earth day in a big way...
- Take the pledge to restore the earth
- For everyone, for everything on earth, we must commit to the restoration of the earth every day..

PLEDGE

"I always care and respect mother Earth. It's my solemn duty to conserve nature. It's my responsibility to preserve the integrity and health of our planet for generations to come. I shall contribute to the best of my ability for mitigation of climate change, saving biodiversity and strive for sustainable development."
